

Name: David Satchell

Company: Amicuslaw

About: Amicuslaw is now approaching its 10th anniversary having started in Taunton and now boasting four offices serving the whole of Somerset and beyond with specialist lawyers providing cost effective advice to individuals and our sister firm, Amicus Commercial, doing the same for SMEs and offering fixed fees for the work we do wherever possible.

Expertise and Services: Legal Services of most types, but excluding Personal Injury – we're not ambulance chasers! Our specialist lawyers advise on individual areas of law truly allowing us to describe ourselves as specialists in many areas of individual, business and agricultural law.

What to look for: Any individual or business wanting bespoke cost effective legal assistance.

Individuals and business owners who are dissatisfied with their existing legal advisors or who just don't feel they are getting value for money.

People who value high quality cost effective advice prior to the event rather than those looking for an expensive, more complex outcome after the event (although we are still happy to assist them).

Why: Because proactive advice is always more cost effective and makes you better prepared.

Because no matter how prepared we may be life like s to catch us out.

Because the world is more litigious? Not necessarily, but the right advice at the right time can help avoid a small problem becoming a much bigger and substantially more expensive one.

Because not doing it now doesn't mean it won't happen or that it will get any easier or simpler to resolve – sticking heads in sand is for ostriches.

Because sometimes the Google or your mate down the pub are wrong!

Because we're all going to die!

Listen for: On the move with property/business/job/spouse/health/somebody else's belongings

Questions: Are you immortal?

Is your business immortal?

Is that swag under your arm really yours?
